HOW KELLOGG KEPT AHEAD

"Dr. Kellogg asked me in New York City 22 years ago if I knew how it was that the Battle Creek Sanitarium was able to keep five years ahead of the medical profession. I did not know. Then he told me.

"He said when a new thing is brought out in the medical world he knew from his knowledge of the Spirit of prophecy whether it belonged in our system or not. If it did, he instantly adopted it and advertised it while the rest of the doctors were slowly feeling their way, and when they finally adopted it he had five years the start of them.

"On the other hand when the medical profession were swept off their feet by some new fad, if it did not fit the light we had received he simply did not touch it. When the doctors finally discovered their mistake they wondered how it came that Dr. Kellogg did not get caught."--Dr. David Paulson, in "The Two Standard Plan"
